

# Hilton Model Billiard Table

Frame and cushion rails made out of MDF. The purpose for that is so we can get a mirror finish, due to the surface having no knots or grain.

All the frame work is approximately 38mm thick and all table joints are rebated. The depth of the frame is approximately 245mm. The frame also comes with blocks and mouldings.

Legs are square tapered and is 7" thick made out of timber. (Pine timber) It also comes with large brush chrome feet standard or the other options are chrome and brass.

The cushions rails have 4 pieces to it and it has been biscuit laminated. The top width of the rail is approximately 70mm and it has a Bull nose finish to it. It has laminex stainless sliding panels standard, or the other option is timber. The sliding panels are there to cover the cushion bolts.

It has Brazilian Slate  $\frac{3}{4}$ " thick and it's screwed to the frame.

The cloth that is used is English strachan 6811B.

The table has large square brush chrome brackets standard, or the other options are chrome or brass brackets. It also has heavy leathers and silver nets.

The table is painted professionally in 2pac high gloss black paint as standard, but on request it can be painted in other colours.
