

Jarrah Model Billiard Table.

Frame and cushion rails and legs are made out of Western Australia Jarrah Timber.

Jarrah is a hardwood timber grown in the south west of Western Australia. Jarrah is renowned for its rich red colours that deepen over time. The heartwood ranges from deep browns to burgundy hues.

It's extremely hard, heavy species and it's very durable.

All the frame work is approximately 38mm thick and all table joints are rebated. The depth of the frame is approximately 245mm. The frame also comes with blocks, mouldings, draw, panels and plain scrolls.

Legs are 7" thick turned timber legs. (Jarrah timber) Comes standard with Barrassi design leg, but you also have the option of going with a fluted or square. It also comes with large brass feet.

The cushions rails have 4 pieces to it and it has been biscuit laminated. The top width of the rail is approximately 70mm. It has sliding panels which covers the cushion bolts.

The rubber that is used is a gum moulded rubber. The rubber sits on a rebated timber blocked to give it extra support and to stop from pulling away from the block. The blocked is then screwed with 5 screws to the cushion rail.

It has a Brazilian Slate base ¾" thick and it's screwed to the frame.

The cloth that is used is English strachan 6811B.

The table has large brass brackets. The R3 design or R16. It also has heavy leathers and white nets.

The table is finished in its natural tone with a semi gloss finish.
