

Montera Model Billiard Table

Frame and cushion rails made out of solid hardwood timber. No MDF or custom wood veneer.

All the frame work is approximately 38mm thick and all table joints are rebated. The depth of the frame is approximately 230mm.

Legs are square tapered and cut out at the top so it fits over the frame. It tapers from approximately 160mm to 127mm and made out of Hardwood timber. It also comes with large brush chrome feet standard or the other options are chrome and brass.

The cushions rails have 4 pieces to it and it has been biscuit laminated. The top width of the rail is approximately 70mm and it has a square finish to it. It has laminex stainless sliding panel's standard, or the other option is timber. The sliding panels are there to cover the cushion bolts.

The rubber that is used is a gum moulded rubber. The rubber sits on a rebated timber blocked to give it extra support and to stop from pulling away from the block. The rubber block is then screwed with 5 screws to the cushion rail.

It has Brazilian Slate $\frac{3}{4}$ " thick and it's screwed to the frame.

The cloth that is used is English strachan 6811B. Std All colours

The table has large brush chrome brackets standard, or the other options are chrome or brass brackets. It also has heavy leathers and silver nets.

The table comes in standard different stains and is finished in semi gloss.
